# VISU-Schéma v2 HELP

A VISU-Schéma CD-ROM corresponds to a paper Electrical Diagram Technical Note and therefore its reference is TNxxxx.

As with paper Wiring Diagram Technical Notes, a VISU-Schéma CD-ROM contains the wiring diagrams for a vehicle starting from a given date up to the next CD-ROM.

It is <u>essential</u> to keep ALL VISU-Schéma CD-ROMs. A new CD-ROM does <u>not</u> replace the previous one.

An installation and training CD-ROM is available for VISU-Schéma on CLIP. This CD-ROM can be ordered under part number: 77 11 304 577.

There are two versions of CD VISU:

CD VISU v1: CD distributed since the launch of VISU in December 2002 until around June 2003.

CD VISU v2: CD distributed from around July 2003.

CD v2 contains two additional functionalities:

- simplified printing of A3 diagrams on 2 sheets of A4 paper
- full-screen display

# How do I...?

# What is the difference between CD VISU-Schémas v1 and v2?

CD v2 contains two additional functionalities:

- simplified printing of A3 diagrams on 2 sheets of A4 paper
- full-screen display

# How is the CD version identified?

# How do I print an A3 diagram on an A4 printer?

The answer depends on the CD VISU version.

1) CD VISU version 1

Reduce the size of the diagram to the size of the screen

Click on the selection tool, keeping the left-hand mouse button pressed down

Move the pointer over the image tool, keeping the left-hand mouse button pressed down

Release the left-hand button to select the image tool

Select the left-hand third of the diagram

Print by clicking on the print button

Print

Print with the correct configuration

# Repeat to print the middle section, then the third section of the diagram

# 2) CD VISU version 2

Printing an A3 diagram on two A4 sheets is easier in CD VISU version 2.

Select the required diagram.

If it is in A3 format (colour diagram), an icon appears to the right of the scrolldown menu.

Click on the right-hand "printer" icon.

A full-screen Acrobat Reader window opens.

Click on the Acrobat print button.

The diagram is automatically printed on two sheets of A4 paper.

When printing has finished, close the Acrobat Reader page by clicking on the small cross in the upper right-hand side of the screen.

#### Find the correct diagram or title

- 1. Select the correct VISU Schéma CD-ROM, according to
  - a) the vehicle, Clio, Laguna, etc.
  - b) the manufacture date of the vehicle (by default, the date it was first distributed)
- 2. Click on a component which belongs to the required function

- 3. Click on the diagram icon with or on the title icon
- 4. From the list of diagrams, select the one which corresponds to the required function and the vehicle criteria

# CLICK ON THE CRITERIA LINE, NOT THE FUNCTION

SELECT A DIAGRAM

# Simultaneously refer to several documents under VISU-Schéma

On VISU-Schéma, it is possible to simply refer to several documents at the same time. To do this, in the VISU-Schéma window use the shortcut Ctrl-N or the Netscape drop-down menu "File / New / navigator window" (see screenshot below).

At the bottom of the screen, in the task bar, there are now two Netscape windows.

You can toggle from one window to the other by clicking on each of the two tasks in the bar.

For example, you can display a diagram in window 1 and a parts list in window 2.

# How to search for a component in the list of components

You can search for a word in the list of components to the left of the window. Two operations are required:

1/ Select the box

# How to enlarge a section of the diagram

Click on the PDF magnifying glass 3.

Press the left-hand mouse button. <u>HOLD IT DOWN</u> while moving the mouse Select the required area. Release the button

The selected area is enlarged.

# CHow do I display a full-screen diagram?

Functionality only available on CD VISU version 2.

Select the required diagram from the scroll-down menu

Once you have selected the diagram, a "full-screen" icon appears to the right of the scroll-down menu.

Click on the "full-screen" icon and the diagram appears in a new full-screen window.

To close this window, click on the small cross in the upper right-hand side of the screen

#### How to zoom out, how to reduce the size of the diagram

Position the mouse pointer over the magnifying glass.

Press the left-hand mouse button.

HOLD IT DOWN and a menu appears.

Move the mouse pointer over Zoom out.

Click on the diagram to reduce it.

# How do you close or exit VISU-Schéma?

Before removing the VISU-Schéma CD-ROM from the CD reader, you must:

or

close the open VISU-Schéma window

CLICK on the cross to close the window

or

exit Netscape completely (Ctrl-Q key)
